Date: August, 2003

Environmental Infrastructure – Baton Rouge, Louisiana (Ascension, E. Baton Rouge and Livingston Parishes)

PROJECT AUTHORITY: Environmental Infrastructure Projects were authorized by the Omnibus appropriations Bill for the Dept.s of Labor, HHS and related agencies of December 21, 2000 (PL 106-554). The Bill amends WRDA 92, Section 219 (c) and related amendments in WRDA 99.

PROJECT SPONSORS: Ascension, E Baton Rouge, and Livingston Parishes, Louisiana

PROJECT LOCATION: Ascension, E Baton Rouge, and Livingston Parishes, Louisiana

PROJECT PURPOSE: The project will provide assistance to non-Federal interests for carrying out water-related environmental infrastructure and resource protection development including waste water treatment and related facilities and water supply, storage, treatment and distribution facilities. Assistance may be in the form of technical planning, design or construction.

PROJECT FEATURES: The City/Parish of Baton Rouge has indicated a need for Federal construction assistance for their \$491 million proposed Sanitary Sewer Overflow (SSO) Corrective Action Plan. The project includes upgraded conveyance, storage and treatment facilities in their waste water system. Individual projects have not yet been identified for Ascension and Livingston Parishes.

PROJECT COST:

Total Project Cost	\$27,000,000
Total Federal Cost	\$20,000,000
Total Non-Federal Cost	\$ 7,000,000

PROJECT BUDGET/SCHEDULE: Unbudgeted in FY04, funds required for FY04 are \$2.2M. These funds will be used to continue the planning, design and construction of various environmental infrastructure projects as designated by the local sponsors.

ISSUES: Federal funds are being pursued by local interests to advance design and construction.
